### Transcript:

And my comments are, I'm currently living on the west side of Aurora, close to the Burlington tracks and I definitely sympathize with the people on the east side of Aurora who are adjacent to the EJ&E tracks and the tie ups that they are going to have going and coming from work, and shopping, and so on, where they're going to be backed up for miles I'm sure by the stoppages on those railroad tracks and at those crossings and I am totally against the Canadian National Railroad taking over the EJ&E and since it's been approved, hopefully that the agencies involved will enforce this strictly and especially get overpasses, etc. so that to eliminate the traffic tie ups at these railroad tracks. I just wanted to go on record saying that I am against the whole operation. Thank you
