Transcript:

As much rail traffic on the...I'm in Alderman Dowels district and we, when we were informed that Canadian National purchased the Elgin lines we were under the assumption that there would not be...here by our home and it has not changed one bit, so we're wondering what's gonna be done about it. We are dealing with noise pollution, air pollution, and all sorts of other hazards that really we were looking forward to not having to deal with any of it anymore. So if somebody could please let us know what and why there is still as much train traffic as there was before and when that will change that will really help us. 312-961-8074. Thank you
