**Re: *Canadian National Railway Company and Grand Trunk Corporation –
Control – EJ&E West Company (STB Finance Docket No. 35087)***

Dear Director Wallen:

Yesterday, pursuant to Decision No. 23 in the above-referenced proceeding, Canadian National Railway Company and Grand Trunk Corporation (collectively, "CN") submitted a variety of Cellular Remote Terminal Unit ("RTU") data related to blocked crossings, including a disc containing the raw output of the RTUs installed at crossings on EJ&E's railway line.

CN had requested that Progress Rail also provide a file layout explaining each of the columns for the raw data. Progress Rail, however, was unable to provide the requested layout until after yesterday's filing. Accordingly, CN is hereby submitting the file layout as an aid to understanding the raw RTU data.

Please let me know if you have any questions.

Very truly yours,

Paul A. Cunningham
David A. Hirsh

Counsel for Canadian National Railway Company
and Grand Trunk Corporation
