Mr. Matthew T. Wallen  
Director  
Office of Public Assistance, Governmental  
Affairs & Compliance  
Surface Transportation Board  
395 E Street, SW  
Washington, DC 20423

Dear Director Wallen:

Please find enclosed the status report for the month of March 2011 on operational matters related to CN's acquisition of the major portion of the Elgin, Joliet and Eastern Railway Company (EJ&E), as required in the Board's final decision served December 24, 2008 approving this transaction.

The enclosed report provides information on the following operational matters:

- *Interchanges:* the report lists the number of cars interchanged at each interchange location on the EJ&E for March 2011 (with separate sheets showing cars delivered, cars received, and total cars interchanged), and includes a comparison of March 2010 and March 2011 interchange numbers at each location.
- *Railroad at-grade crossings:* the report identifies delays at railroad interlockings along the EJ&E line that occurred during March 2011.
- *Accidents and injuries:* the report provides the date and descriptive information about each accident and injury that occurred on the EJ&E line or on CN lines through Chicago during March 2011. This report includes all accidents and injuries reported to FRA for these lines, regardless

of whether they fall below FRA's thresholds of significance. It also includes all incidents reported by CN to the Pipeline and Hazardous Materials Safety Administration (PHMSA) on DOT Form F 5800.1 (Hazardous Materials Incident Report).

- *Street crossing blockages:* the report provides data concerning each instance during March 2011 where a crossing was blocked on EJ&E for 10 minutes or more. This report includes two items: (1) a summary table and raw data for EJ&E crossings equipped with Remote Terminal Units (RTUs), which show all notifications from the RTUs of automated crossing warning device (ACWD) activations for 10 minutes or more, regardless of the cause, as reported by our vendor, Progress Rail; and (2) a monthly blocked crossing report for March 2011, which includes all known street crossing blockages on EJ&E lines of 10 minutes or more.

There was an increase in the total number of blocked crossings of 10 minutes or more on EJ&E during the month of March as compared to February, but the total remained well below the monthly average for the 4<sup>th</sup> quarter of 2010. Increased blockages were widespread on EJ&E, but the most significant cause for this overall increase was an increase in blockages in Joliet H-Yard (caused by UP and BNSF trackage rights trains) and an increase in blockages at nearby Woodruff Road. Blocked crossings in and around Joliet accounted for 648 blockages (47.1 percent of the total). Woodruff Road, for which two grade-separated alternatives exist, remains the largest single blockage location on all of EJ&E, with 250 blockages in March (17.2 percent of the total). Crossings in the vicinity of West Chicago also contributed significantly to the total, with 153 blockages (10.5 percent of the total).

This month's report includes a total of 59 blockages at private crossings, including 52 at Marina Lot Drive, which is a seldom-used crossing closed by a locked gate. In addition, the report includes 72 blockages that were not caused by operations on the EJ&E line, but rather by operations on other lines that cross or are parallel to EJ&E's lines and share crossing protection (e.g., Chicago, South Shore and South Bend Railroad at Taylor Forge Road).

- *Train volumes:* the report provides train counts for operations over segments of EJ&E's principal lines and on CN lines through Chicago during March 2011.

Please also note the following updates regarding our operations and related activities on the EJ&E.

- CN's voluntary installation of signs providing additional information at EJ&E at-grade crossings is well underway, with these signs now installed at all crossings from West Chicago through Mundelein. Installation of signs at the remaining EJ&E crossings will be completed in April. These signs, which are 24 tall by 30 inches wide and include CN's emergency contact number, face oncoming vehicular traffic so as to be prominent to motorists. As an example, a photograph of the sign at the EJ&E crossing at Otis Road in Barrington Hills, IL is attached for your information.
- The crossing at Main Street in Matteson, Illinois has been closed to the public since March 28, 2011 at 6:00a.m. to accommodate the construction of our new connection; the crossing will be closed for a period of 10 weeks. In addition, as of April 4 at 6:00a.m., the 111<sup>th</sup> Street crossing in Plainfield will be closed to the public for two weeks for crossing reconstruction.
- On March 1, CN Police participated jointly with officers from the Plainfield Police Department in a traffic safety blitz at the Main Street highway-rail grade crossing in Plainfield, IL. A total of 52 citations were issued to motorists for various railroad related offenses as follows: 35 citations for Stopping on a Highway Rail Grade Crossing; three citations for Operation of a Motor Vehicle Without Proof of Insurance; two citations for Operation of a Motor Vehicle Without a Driver's License; one citation issued for Trespass to Railroad Property; and 11 citations for Juvenile Trespass to Railroad Property.
- On March 3, CN Police Inspector Michael Landini met with Assistant Chief of Police David Heinz of the Dyer, IN Police Department in a meet and greet session, continuing our ongoing effort to reach out to law enforcement and emergency response agencies along the EJ&E line. Assistant Chief Heinz advised that he has no issues to report on at this time.
- On March 7, CN Special Agent Eric Graf conducted three Operation Lifesaver presentations at the West Chicago High School in West Chicago, IL, to students attending the driver's education program. These presentations targeted new drivers, and included an explanation of Illinois traffic laws pertaining to the railroad industry. This school is located within one-quarter mile of the EJ&E tracks. A total of 121 students were in attendance.

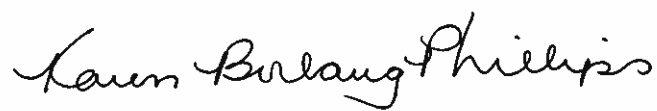

- On March 15 and March 17, Special Agent Eric Graf conducted Grade Crossing Collision Investigation classes for 32 police officers with the Frankfort Police Department in Frankfort, IL. Blocks of instruction included the latest investigative techniques and procedures pertaining to collisions involving railroad equipment, notification, and railroad safety and awareness. Additional instruction also included criminal and traffic laws pertaining to the railroad industry, and proper completion of the Illinois Crash Report.
- Between March 21 and March 27, CN Police participated jointly with the Plainfield Police Department and Illinois Operation Lifesaver in education and enforcement initiatives surrounding the Village of Plainfield's Train Safety Awareness Week. A proclamation, "Whereas CN and Illinois Operation Lifesaver declare their support for Train Safety Awareness Week," was issued by Mayor Michael Collins at the Village of Plainfield's Board Meeting on the evening of March 21. In conjunction with this initiative, CN Police participated in a joint enforcement safety blitz, along with Special Agent Eric Graf and CN Patrol Officer David Barajas conducting an Operation Lifesaver Booth on March 26, from 9:00am to 2:00pm, at the Plainfield High School for the Chamber of Commerce in Plainfield, IL. Approximately 500 people were in attendance.
- On March 23, CN Police participated jointly with the Plainfield Police Department, Illinois State Police, and the Union Pacific Railroad Police Department in an enforcement safety blitz, coinciding with Train Safety Awareness Week in the Village of Plainfield, IL. A total of 22 citations were issued for various railroad related offenses, along with one arrest for Criminal Trespass to Railroad Property, and one misdemeanor arrest for Possession of Cannabis. A breakdown is as follows: eight citations issued to motorists who stopped on highway-rail grade crossings; two warning citations issued to motorists who stopped on highway-rail grade crossings; three citations issued for operation of an uninsured motor vehicle; one citation issued for violation of the mandatory seat belt law; one arrest for Criminal Trespass to Railroad Property; one misdemeanor arrest for Possession of Cannabis; five warning citations issued to juveniles for Criminal Trespass to Railroad Property; and three warning citations issued to adults for Criminal Trespass to Railroad Property.
- On March 29 – 30, Special Agent Eric Graf also conducted Grade Crossing Collision Investigation Classes at the Tri-Town Safety Village in Schererville, IN, for 38 police officers representing various law enforcement agencies along the EJ&E line. Blocks of instruction included the latest investigative

techniques and procedures pertaining to collisions involving railroad equipment, notification, and railroad safety and awareness. Additional instruction also included criminal and traffic laws pertaining to the railroad industry, and proper completion of the Indiana Crash Report.

Please do not hesitate to contact me if you or your colleagues have any questions on this report or need additional information on CN's Chicago-area operations.

Sincerely,
