Ms. Lucille Marvin
Acting Director
Office of Public Assistance, Governmental
Affairs & Compliance
Surface Transportation Board
395 E Street, SW
Washington, DC 20423

Dear Acting Director Marvin:

Please find enclosed the status report for the month of June 2011 on operational matters related to CN's acquisition of the major portion of the Elgin, Joliet and Eastern Railway Company (EJ&E), as required in the Board's final decision served December 24, 2008 approving this transaction.

The enclosed report provides information on the following operational matters:

- ***Interchanges:*** the report lists the number of cars interchanged at each interchange location on the EJ&E for June 2011 (with separate sheets showing cars delivered, cars received, and total cars interchanged), and includes a comparison of June 2010 and June 2011 interchange numbers at each location.
- ***Railroad at-grade crossings:*** the report identifies delays at railroad interlockings along the EJ&E line that occurred during June 2011.
- ***Accidents and injuries:*** the report provides the date and descriptive information about each accident and injury that occurred on the EJ&E line or on CN lines through Chicago during June 2011. This report includes all accidents and injuries reported to FRA for these lines, regardless of whether they fall below FRA's thresholds of significance. It also includes all incidents reported by CN to the Pipeline and Hazardous Materials Safety Administration (PHMSA) on DOT Form F 5800.1 (Hazardous Materials Incident Report).

In addition to this month's accident and injury report, we are enclosing an amended version of the accident and injury report submitted last month covering May 2011. After submitting that report, we discovered that an injury that occurred on May 20 on EJ&E's Leighton Subdivision had been inadvertently omitted.

- *Street crossing blockages*: the report provides data concerning each instance during June 2011 where a crossing was blocked on EJ&E for 10 minutes or more. This report includes two items: (1) a summary table and raw data for EJ&E crossings equipped with Remote Terminal Units (RTUs), which show all notifications from the RTUs of automated crossing warning device (ACWD) activations for 10 minutes or more, regardless of the cause, as reported by our vendor, Progress Rail; and (2) a monthly blocked crossing report for June 2011, which includes all known street crossing blockages on EJ&E lines of 10 minutes or more.

The total number of blockages reported this month rose over 10 percent as compared to last month. Over half of that increase was due to additional blockages at West Chicago, which experienced an increase of 68 blockages (from 119 to 187). This increase was due primarily to a substantial increase in blockages caused by UP trackage rights trains moving into the UP West Chicago Yard. CN is trying to schedule a meeting with UP to learn why its trains moved more slowly this month and to explore possible solutions.

Blockages also increased significantly in the Joliet area this month, rising from 528 to 595. This was primarily due to an increased number of blockages at Washington Street (42 additional blockages) and Woodruff Road (24 additional blockages). The increased number of blockages at Washington Street was primarily due to a large number of generally brief blockages beginning mid-June as a result of signal delays at Metra's Rock Island interlocking which CN believes were caused by the bunching of freight traffic on the Metra line and by operation of the interlocking signals by newly assigned Metra personnel. CN has discussed the matter with Metra and plans to meet with Metra to review this and other operating issues.

Additional blockages were also recorded this month due to CN's installation of four new RTUs on its Matteson Subdivision in Indiana. These new RTUs began operating as follows: 45th Avenue and Miller Street in Griffith (both on June 7), 40th Place in Griffith (on June 20), and West 5th Avenue in Gary (on June 22). For the month, there were six blockages at Miller Street, three blockages at West 5th Avenue, and one blockage each at 45th Street and at 40th Place.

This month's report includes a total of 36 blockages at Marina Lot Drive, which is a seldom-used crossing closed by a locked gate. In addition, the report includes 66 blockages that were not caused by operations on the EJ&E line, but rather by operations on other lines that cross or are parallel to EJ&E's lines and share crossing protection (e.g., Chicago, South Shore and South Bend Railroad and Taylor Forge Road).

- *Train volumes:* the report provides train counts for operations over segments of EJ&E's principal lines and on CN lines through Chicago during June 2011.

Please also note the following updates regarding our operations and related activities on the EJ&E.

- A number of crossings were closed to vehicular traffic this month for construction and resurfacing projects. In New Lenox, Illinois, Gougar Road was closed from 6:30 am on June 20 until 7:00 pm on July 1. In Plainfield, Illinois, 127th Street was closed from 6:30 am on June 13 until 7:00 pm on June 29, 2011, and 119th Street was closed from 6:30 am on June 27 until 9:00 pm on June 29. In Matteson, Illinois, Main Street has been closed since March 28 for complete track relocation and street rebuilding. The reopening of this crossing has been delayed because of excessive rainfall and difficulties relocating a third-party communication line.
- On June 4, CN Police participated jointly with the West Chicago Police Department by hosting an Operation Lifesaver Booth at the Touch-A-Truck event in West Chicago, Illinois. Families had the opportunity to see and touch a variety of emergency response, construction, and other heavy equipment trucks staged in West Chicago. Operation Lifesaver safety material was distributed to approximately 1,000 people in attendance.
- On June 7, CN Police participated jointly with officers from the Frankfort Police Department in a training session to discuss railroad related safety issues, and legal aspects of enforcing laws pertaining to the rail industry. Following the training session, officers from the Frankfort Police Department conducted an enforcement/educational safety blitz at seven highway-rail grade crossings in Frankfort, Illinois. A total of 50 motorists were educated on the many dangers associated with railroad tracks and trains through safety brochures and discussion.
- On June 9, Police participated jointly with officers from the Plainfield Police Department in a traffic safety blitz, in conjunction with International Level Highway-Rail Grade Crossing Awareness Day, at the Main Street highway-rail grade crossing in Plainfield, Illinois. A total of 23 citations were issued for

railroad related traffic offenses: 16 for Blocking a Railroad Crossing; two warning citations for Blocking a Railroad Crossing; three for Driving an Uninsured Motor Vehicle; one for Driving While License Suspended; and one for No Valid Driver's License on Person.

- On June 9, CN Police participated jointly with officers from the West Chicago Police Department in a traffic safety blitz, in conjunction with International Level Highway-Rail Grade Crossing Awareness Day, at the Washington Street highway-rail grade crossing in West Chicago, Illinois. Two citations were issued for railroad related traffic offenses (Passing within 100 Feet of a Highway-Rail Grade Crossing).
- On June 9, CN Police participated jointly with officers from the Frankfort Police Department in a traffic safety blitz, in conjunction with International Level Highway-Rail Grade Crossing Awareness Day, at seven highway-rail grade crossings in Frankfort, Illinois. Highway-rail grade crossing safety educational materials were distributed to 27 motorists.
- During the week of June 13, CN Police participated jointly with officers from Union Pacific Railroad Police, BNSF Railway Police, and the Chicago Heights Police Department in a traffic and pedestrian safety blitz at multiple highway-rail grade crossings in Chicago Heights, Illinois. A total of 24 citations were issued for railroad related traffic offenses and trespass violations: six for Disobeying an Activated Railroad Signal; one for Operation of a Motor Vehicle Without Proof of Insurance; one for Driving Without a Driver's License; one for Suspended Driver's License; three for Disobeying a Traffic Control Device Tied into a Railroad Signal; six for Adult Trespass to Railroad Property; three warning citations for Adult Trespass to Railroad Property; and three warning citations for Disobeying an Activated Railroad Signal

Please do not hesitate to contact me if you or your colleagues have any questions on this report or need additional information on CN's Chicago-area operations.

Sincerely,

Karen Borlaug Phillips

**Accidents on CN lines through Chicago and on EJ&E lines
June 2011 data for July 2011 report**

Event date	Subdivision	Narrative
CN		
06/05/11	ELSDON	Train derailed 39 cars while departing yard. Wheel lift on empty equipment was contributing cause of derailment.
06/07/11	ELSDON	Train crew reported that car loaded with sulfuric acid was leaking on main line track. Vapor/air line valve was found to be ca. ¼ turn open. Valve was closed, plug tightened, and car released to its destination. Approximately one gallon of product was lost.
06/08/11	ELSDON	Four cars derailed as train was pulling into Union Pacific yard track; derailment was caused by a broken switch point.
06/16/11	CHICAGO	Trainmaster reported that a car containing residue of amines was leaking from the bottom outlet valve. Valve handle pin was found to be out of place, valve to be ca. ¼ turn open, and nuts to valve flange to be insufficiently tight. Valve handle and nuts were properly secured, and car released to its destination. Approximately 24 ounces of product was lost.
06/20/11	FREEPORT	Train was hit by vehicle that drove through the descended gates at a private crossing. The driver of the vehicle then fled the scene.

06/03/11	CHICAGO	Contractor moving files and recycled paper from office to trailer fainted in bathroom and hit his head causing small cut.
06/04/11	CHICAGO	Employee was attempting to adjust a drawbar when he felt a "pop" in his left knee. He was diagnosed with left knee strain.
06/12/11	FREEPORT	Employee reported left foot pain after walking through industry. He has been diagnosed with Plantar Fasciitis. (CN disputes the employee's claim that this condition was caused by railroad operations and is reporting the condition to FRA as "claimed but not admitted by the railroad," pursuant to 49 C.F.R. § 225.17(c).)

05/12/11	JOLIET	Crew was pulling cut of cars out of track when it noticed vapors coming from car. The car was isolated and the Dangerous Goods Officer ("DGO") responded and found that the frangible disc had ruptured, allowing hydrochloric acid vapors to escape. The disc was replaced, and the car was allowed to move.
05/19/11	CHICAGO	FRA inspector noted Ethyl Acrylate vapors coming from the manway area of portable tank on car. The DGO responded, the car was isolated, a wing nut and a bolt were re-attached, and the remaining nuts were secured, stopping the vapor release. The car was then released to its destination.
