Mr. Matthew T. Wallen
Director
Office of Public Assistance, Governmental
Affairs & Compliance
Surface Transportation Board
395 E Street, SW
Washington, DC 20423

Dear Director Wallen:

Please find enclosed the status report for the month of June 2010 on operational matters related to CN's acquisition of the major portion of the Elgin, Joliet and Eastern Railway Company (EJ&E), as required in the Board's final decision served December 24, 2008 approving this transaction.

The enclosed report provides information on the following operational matters:

- *Interchanges*: the report lists the number of cars interchanged at each interchange location on the EJ&E for June 2010 (with separate sheets showing cars delivered, cars received, and total cars interchanged), and includes a comparison of June 2009 and June 2010 interchange numbers at each location.
- *Railroad at-grade crossings*: the report identifies delays at railroad interlockings along the EJ&E line that occurred during June 2010.
- *Accidents and injuries*: the report provides the date and descriptive information about each accident and injury that occurred on the EJ&E line or on CN lines through Chicago during June 2010. This report includes all accidents and injuries reported to FRA for these lines, regardless of whether

they fall below FRA's thresholds of significance. It also includes all incidents reported by CN to the Pipeline and Hazardous Materials Safety Administration (PHMSA) on DOT Form F 5800.1 (Hazardous Materials Incident Report). CN reported one injury this month.

- *Street crossing blockages:* the report provides data concerning each instance during June 2010 where a crossing was blocked for 10 minutes or more. This report includes two items: (1) summary sheets and raw data for EJ&E crossings equipped with Remote Terminal Units (RTUs), which show all notifications from the RTUs of automated crossing warning device activations (ACWDs) for 10 minutes or more, regardless of the cause; and (2) a monthly blocked crossing report for June 2010, which includes all known ACWD activations on EJ&E lines of 10 minutes or more.

We note that there was a decrease in the number of blockages this month as compared to May, despite the fact that numerous blockages were caused by severe storms in the Chicago area during June as well as by work replacing grade crossings. As with prior months, by far the largest number of reported blockages is for Woodruff Road in Joliet, where Charlesworth Avenue is available as an alternative grade-separated road, and where issues remained during June concerning the RTU configuration. The RTU at Woodruff Road has now been reconfigured in an effort to improve the accuracy of its reporting.

CN has included in its report over 50 blockages of the EJ&E line that were not caused by operations on the EJ&E line, but rather by operations on other lines that cross or are parallel to EJ&E's line and share crossing protection. For example, 23 reported gate activations at Taylor Forge Road were caused by activity on the line of Chicago South Shore & South Bend Railroad at that location rather than activity on EJ&E's lines.

ACWD malfunctions and crossing replacement work, rather than the operation of CN's trains, were responsible for most of the lengthiest blockages this month. The two longest ACWD activations were both at Old Locks Road in Morris, which is a private industrial crossing at Equistar with no public access and protected by flashing lights rather than gates. One of these activations was related to a malfunction, while the other appears to have been caused by the industry's own repositioning of cars in the crossing circuit.

- *Train volumes:* the report provides train counts for operations over segments of EJ&E's principal lines and on CN lines through Chicago during June 2010.

Please also note the following updates regarding our operations and related activities on the EJ&E.

- During June 2010, we added one train per day per direction on the EJ&E line from Joliet Yard to Griffith and one train per day from Griffith to Aurora (Eola).
- Following the June 2, 2010 town hall meeting on the EJ&E transaction in New Lenox, Illinois hosted by Congresswoman Halvorson (D-Illinois) and attended by Chairman Elliott at which concerns were expressed about the service being provided by CN to businesses on the EJ&E, CN staff contacted each of CN's customers on the line to discuss CN's service and to determine if the customers have any commercial or operational issues. The vast majority of the customers had no issues and for the two customers who expressed concerns, CN account managers and operations officials have followed up in an effort to resolve issues.
- On June 5, CN Police participated jointly with the West Chicago, IL Police Department, and the West Chicago Park District in an event entitled "Touch-a-Truck" at the Reed Kepler Park in West Chicago. Children and curious adults had an opportunity to sit in and climb on unusual trucks and equipment from the City of West Chicago Public Works Department, Police Department, and Fire Protection District, along with large construction equipment from local construction companies. CN Police hosted an Operation Lifesaver Booth, and CN's miniature train "Little Obie" was in attendance as well. Approximately 75 people attended this event.
- On June 17, CN Police participated jointly with the Union Pacific Railroad Police Department, and the Chicago Heights and South Chicago Heights, IL Police Departments in an aggressive enforcement initiative designed to reduce highway-rail grade crossing collisions and trespass incidents at crossings and along CN rights-of-way in Chicago Heights, IL. A total of 14 citations were issued for various highway-rail grade crossing violations, and 15 citations issued for trespassing offenses.
- On June 17, CN Police Chief Bobby Walker and Inspector Michael Landini conducted site visits to the local police departments of five communities (Joliet, Frankfort, Mokena, New Lenox, and Crest Hill, IL) located along the EJ&E line. These visits were part of CN's ongoing pro-active liaison efforts to meet with local law enforcement officials while also providing the opportunity to address any issues or concerns raised by them or their agencies.

Mr. Matthew T. Wallen
July 12, 2010
Page Four

- On June 22, CN Police participated jointly with the West Chicago, IL Police Department in International Level Highway-Rail Grade Crossing Awareness Day. This 35-country event was designed to educate motorists and pedestrians on the dangers associated with highway-rail grade crossings. Approximately 300 brochures entitled "Highway-Rail Grade Crossing-7 Steps for Safety" and "Key Safety Tips at Highway-Rail Grade Crossings" were distributed to commuters at the West Chicago METRA Train Station.

Please do not hesitate to contact me if you or your colleagues have any questions on this report or need additional information on CN's Chicago-area operations.

Sincerely,

Karen Borlaug Phillips
Vice President – Public and
Government Affairs

1	6/1/2010	H75191-31	West Chicago	Ann Street	10	0034	7944	Because no utility man was available to line up the train ahead of their arrival, inbound crew had to line their route into West Chicago off the New connection.
2	6/1/2010	H75191-31	West Chicago	Church Street	10	0035	7944	Because no utility man was available to line up the train ahead of their arrival, inbound crew had to line their route into West Chicago off the New connection.
3	6/1/2010	H75191-31	West Chicago	W. Washington Street	24	0035	7944	Because no utility man was available to line up the train ahead of their arrival, inbound crew had to line their route into West Chicago off the New connection.
4	6/1/2010	CN-YRD-ENG	Joliet	Woodruff Road	10	0136		Yard locomotive making multiple moves in the yard.
5	6/1/2010	M34791-01	Griffith	Main Street	10	0558	9300	Train on the move through Griffith interlocking crossing over from Main 2 to Main 1. Cross-overs have a maximum speed of 10MPH
6	6/1/2010	M34791-01	Griffith	Broad Street	12	0600	9300	Train on the move through Griffith interlocking crossing over from Main 2 to Main 1. Cross-overs have a maximum speed of 10MPH
7	6/1/2010	M34791-01	Sauk Village	Torrence Avenue	10	0620	9300	Train moving from Main 2 to Main 1 at a maximum speed of 10 mph.
8	6/1/2010	C70391-01	Mundelein	Route 60/83	12	0744	7200	Train entering onto Main 1 at Leighton, moving onto the Waukesha Sub at a maximum speed of 10MPH in the connection.
9	6/1/2010	C70391-01	Mundelein	Diamond Lake Road	12	0745	7200	Train entering onto Main 1 at Leighton, moving onto the Waukesha Sub.
10	6/1/2010	C74091-01	Hammond	Marina Lot Drive	12	0804	6264	Train servicing customer at Stateline Power Plant working with up to seven tracks inside the plant. Marina Lot Drive is a private crossing protected by a fence and a locked gate with no public access.
11	6/1/2010	M33591-31	Lake Zurich	Oakwood Road	38	0820	5754	Train applied emergency brakes to avoid Lake County road equipment and crew. The emergency brake application caused an air hose to separate, and the conductor had to walk the train when the air would not recover. Once the conductor reconnected the air hose, the train proceeded north. The contractor working for Lake County did not have a flagman on site to protect their work, and the track supervisor met with the contractor and Lake County Road Traffic Operations Commissioner.
12	6/1/2010	M33591-31	Hawthorne Woods	Old McHenry Road	41	0821	5754	Train applied emergency brakes to avoid Lake County road equipment and crew. The emergency brake application caused an air hose to separate, and the conductor had to walk the train when the air would not recover. Once the conductor reconnected the air hose, the train proceeded north. The contractor working for Lake County did not have a flagman on site to protect their work, and the track supervisor met with the contractor and Lake County Road Traffic Operations Commissioner.
13	6/1/2010	M34791-01	Joliet	North Rowell Avenue	13	0900	9300	Train pacing for given Metra Rock Island Jct. window
14	6/1/2010	M34791-01	Joliet	Woodruff Road	12	0918	9300	Train departing Joliet Yard North over bridge 198 with a maximum speed of 10MPH.
15	6/1/2010	CSSSB	Gary	Taylor Forge Road	26	1028		Gates down due to CSSSB Train operations on adjacent track. Interlocked gates protect road crossings. CN train did not cause gate to activate
16	6/1/2010	H75091-01	Joliet	Henderson Avenue	11	1116	7458	Train entering Joliet H-Yard Track around a tight curve with a maximum track speed of 10 mph.
17	6/1/2010	H75091-01	Joliet	Royce Avenue	11	1117	7458	Train entering Joliet H-Yard Track around a tight curve with a maximum track speed of 10 mph.
18	6/1/2010	L51091-01	North Chicago	22nd Street	11	1148	507	Train switching industry.
19	6/1/2010	M34791-01	Mundelein	Route 60/83	21	1256	9306	Train stopped approximately 9-10 minutes due to an air hose separation. Once the air hose was reconnected, the train departed north onto the Waukesha Sub.

<u>Number</u>	<u>Date</u>	<u>Train ID</u>	<u>Community</u>	<u>Crossing</u>	<u>Delay in Minutes</u>	<u>Approx Time</u>	<u>Train Length</u>	<u>Comments</u>
20	6/1/2010	M34791-01	Mundelein	Diamond Lake Road	20	1258	9306	Train stopped approximately 9-10 minutes due to an air hose separation. Once the air hose was reconnected, the train departed north onto the Waukesha Sub.
21	6/1/2010	L50991-01	Plainfield	111th Street	22	1347		Train moving south from Joliet to Illinois River Line.
22	6/1/2010	H51291-01	Plainfield	111th Street	14	1408	6242	Train flagging through crossing at 111th Street due to signal maintainer performing work on the crossing. Maintainer protected crossing. Traffic was not stopped at location.
23	6/1/2010	M39931-01	Griffith	Broad Street	11	1425	9867	Train arriving from CN South Bend Sub to EJ&E main; maximum speed on the crossovers and connection are 10 MPH.
24	6/1/2010	UPRR	West Chicago	Hawthorne Lane	11	1600		Gates down due to UPRR Train operations on adjacent track (Belvedere Sub). Interlocked gates protect road crossings. CN train did not cause gate to activate
25	6/1/2010	M39931-31	Park Forest	Western Avenue	11	1655	9867	Train moving at 10 mph speed limit over connection from EJ&E Matteson Subdivision to CN Chicago Subdivision.
26	6/1/2010	M39931-31	Matteson	Main Street	17	1703	9867	Train moving at 10 mph speed limit over connection from EJ&E Matteson Subdivision to CN Chicago Subdivision.
27	6/1/2010	L50791-01	Griffith	Elm Street	11	2125	6632	Train moving west from Main 2 to siding at Griffith over switches and siding with a maximum speed of 10 mph.
28	6/1/2010	H75191-01	Joliet	Royce Avenue	11	2140	7512	Train departing Joliet H-Yard Track around a tight curve with a maximum track speed of 10 MPH.
29	6/1/2010	H75191-01	Joliet	Henderson Avenue	11	2141	7512	Train departing Joliet H-Yard Track around a tight curve with a maximum track speed of 10 MPH.
30	6/1/2010	H75091-02	West Chicago	Hawthorne Lane	19	2205	7514	Train shoving north out of UPRR West Chicago Yard over 10 mph connection.
31	6/1/2010	L50791-01	Griffith	Main Street	11	2226	6632	Train moving west from Main 2 to siding at Griffith over switches and siding with a maximum speed of 10 mph.
32	6/1/2010	L50791-01	Griffith	Broad Street	10	2229	6632	Train moving west from Main 2 to siding at Griffith over switches and siding with a maximum speed of 10 mph.
33	6/1/2010	L50791-01	Griffith	Broad Street	14	2252	6632	Train moving to CN South Bend Sub from EJ&E Main over crossovers and connection with a maximum speed of 10 mph.
34	6/1/2010	C74191-02	Hammond	Marina Lot Drive	30	2303	6995	Train servicing customer at Stateline Power Plant working with up to seven tracks inside the plant. Marina Lot Drive is a private crossing protected by a fence and a locked gate with no public access.
35	6/1/2010	C74191-02	Hammond	Marina Lot Drive	41	2337	6900	Train servicing customer at Stateline Power Plant working with up to seven tracks inside the plant. Marina Lot Drive is a private crossing protected by a fence and a locked gate with no public access.
36	6/2/2010	H75191-01	West Chicago	Ann Street	11	0044	7512	Train entering UPRR West Chicago Yard at a maximum speed of 10MPH. Route lined ahead by utility man at UPRR West Chicago.
37	6/2/2010	H75191-01	West Chicago	Church Street	11	0046	7512	Train entering UPRR West Chicago Yard at a maximum speed of 10MPH. Route lined ahead by utility man at UPRR West Chicago.
38	6/2/2010	H75191-01	West Chicago	W. Washington Street	11	0047	7512	Train entering UPRR West Chicago Yard at a maximum speed of 10MPH. Route lined ahead by utility man at UPRR West Chicago.
39	6/2/2010	UPRR	West Chicago	Hawthorne Lane	10	0216		Gates down due to UPRR Train operations on adjacent track (Belvedere Sub). Interlocked gates protect road crossings. CN train did not cause gate to activate
40	6/2/2010	H50191-02	Joliet	Oakland Avenue	11	0222	7733	Train moving 10 mph preparing to stop at Turner to meet approaching train.
41	6/2/2010	M39081-01	Joliet	Woodruff Road	10	0308	5883	Train proceeding into Joliet Yard with a maximum speed of 10 mph.
42	6/2/2010	CSSSB	Gary	Taylor Forge Road	12	0347		Gates down due to CSSSB Train operations on adjacent track. Interlocked gates protect road crossings. CN train did not cause gate to activate
43	6/2/2010	H50191-02	Aurora	Liberty Street	11	0353	7733	BNSF train moving at restricted speed into BNSF's Eola east yard due to 10 mph speed limit on connection from EJ&E.
44	6/2/2010	C74191-02	Joliet	North Rowell Avenue	11	0459	6609	Train pacing for given Metra Rock Island Jct. window
45	6/2/2010	M39081-01	Matteson	Main Street	11	0641	6437	Train moving east at Matteson, preparing to meet an approaching train.
